

# BRIAN SANBORN, CFA

## Director of Research Applications

**Brian Sanborn, Director of Research Applications**, leads the Research Applications team, which provides quantitative modeling capabilities for the firm's individual Equity and ETF coverage, as well as advanced statistical methods, interactive content, and modeling techniques for the entire firm. He has been with NDRG since 2004.

Brian's team developed and maintains NDRG's Equity Service, which provides unique stock screening and portfolio analysis tools, in-depth actionable commentary (including themed baskets), and detailed stock information.

Brian writes the *Stock-Selection* publications, which provide insights into recent factor performance, emerging factor trends, and favorable factors for the macro environment.

Before joining NDRG, Brian was an Assistant Financial Statement Analyst and an Assistant Quantitative Analyst for Vardon Capital Management, where he performed statistical testing and constructed quantitative models.

Brian received a Master's degree in Statistics from Columbia University and a Bachelor of Science degree in Mathematics and Economics from Davidson College. Brian is a CFA charterholder and is a member of the CFA Institute.
