

DUNG NGUYEN, PhD

Senior Quantitative Analyst

Dung Nguyen, Senior Quantitative Analyst, uses advanced quantitative and statistical tools in a quantitatively driven research process. Dung provides support to other NDR research departments for quantitative projects and contributes to the *Quantitative Review* publication. Dung also trains NDR research analysts in quantitative techniques.

Before joining NDR in 2007, Dung was a teaching assistant in the Economics Department at Florida State University, where he taught Principles of Macro and Micro Economics.

Dung earned his Master's degree in Financial Mathematics and a Master's degree in Economics from Florida State University. He also received a Master's degree in Economics from the Institute of Social Studies, The Netherlands. Dung received his PhD in Economics from Florida State University in 2012.
