

WENBO ZHOU

ETF Technical Analyst

Wenbo Zhou, ETF Technical Analyst, works with NDR's ETF strategist, Neil Leeson, providing ETF research support, indicator and model development, and implementation strategies. Wenbo works closely with NDR's IT and Data Management teams regarding ETF, Third-Party and NDR Advisory data, and product delivery.

Prior to joining the firm in 2012, Wenbo was a Vice President of Equity Options for ING Investment Management, and worked at Citigroup, where he was responsible for equity derivative strategy research and analysis system development.

Wenbo earned his master's degrees in both Statistics and Computer Science from New Jersey Institute of Technology, and a bachelor's degree in science from Shanghai Jiao Tong University, China.
